●MINI NATURAL HISTORY

Amber's compact photographic guides offer a highly illustrated insight into the lives of dangerous animals, wolves, horses, tigers, bears and dogs, amongst others. Each volume includes at least 160 photographs exploring breeds, lifecycle, behaviour, characteristics and rearing young. Excellent for readers of all ages, these are the perfect impulse buys for animal enthusiasts and natural history fans looking to learn more about their favourite species.

Abyssinian

One of the most popular breeds, the Abyssinian was developed in the United Kingdom, with records dating back to the 1890s. But its exact origins remain somewhat of a mystery. Some people believe Abyssinians are the direct descendants of the sacred cats of ancient Egyptians, while others suggest they originated in Abyssinia – what is now Ethiopia – and travelled alongside British soldiers to England. One of these cats from Ethiopia is said to be Zula, who won the prize in the 1871 Crystal Palace cat show. However, genetic research has shown that Abyssinians may have originated near the coast of the Indian Ocean. Regardless of where the Abyssinian hailed from, the modern breed is widely captivating with its almond-shaped eyes, large ears and distinctive ticked coat, where each hair has alternating bands of dark and light colours called 'agouti'. Active and curious, the Abyssinian is constantly on the move and spends most of its day following its owners around, playing, climbing or exploring every nook and cranny – anything to not be still for always in the company of others.

Amber Books' bookazine series now runs to more than 40 volumes, offering a wide range of topics in a popular, accessible format.

Among the history titles are *Knights Templar*, a detailed exploration of the famous crusading brotherhood; *Samurai Warrior*, which examines the weaponry, beliefs and fighting style of the medieval Japanese warrior; and *Vikings*, which follows the adventures of Scandinavia's great raiders and traders, who ranged from the coast of Labrador to the shores of the Black Sea.

There are also scores of bookazines devoted to military technology, from *American Tanks of World War II* to *Modern Submarines* and *F-16 Fighting Falcon*. Divided into separate entries and arranged chronologically, each volume features hundreds of detailed artworks and accurate photographs, accompanied by key specifications and illuminating captions.
